Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

01/17/22 - 01/23/22

Monday - Sunday

- Some areas of locally dense overnight and morning fog are expected across the Central Valley and far northern California mountain valleys through mid and late week
- Scattered light showers are also expected over the southern half of the state later Monday into Tuesday night, with rainfall amounts generally less than one-tenth of an inch. No significant impacts are expected from this precipitation..
- After Tuesday, dry and mild weather will persist statewide through the weekend. Some locally gusty offshore winds are possible across the southern California mountains and foothills Thursday through Saturday.
